uControl Demonstrates Cutting Edge Home Security and Automation Solution at CONNECTIONS Conference

Santa Clara, CA, June 20, 2008 -- At this year's CONNECTIONS Digital Home Conference, [uControl](http://www.uControl.com) will conduct a series of demos of its Home Security, Monitoring and Automation (SMA) Platform from booth #414. The demos will illustrate uControl's TouchScreen technology and proof-of-concept integrations with multiple Cisco products including its Tru2way™ set-top box, and IP Services Gateway.

The uControl TouchScreen combines an alarm panel, gateway, and home control platform in one device that works with existing alarm panels or as a stand-alone alarm system.

uControl President & CEO, Jim Johnson will also participate in a panel called "**Solutions for Broadband Providers: Carriers as "Experience Providers"**" -- The value-added services and features that will differentiate broadband service offerings and increase customer loyalty. The panel will feature other industry leaders and will be moderated by Michael Cai, Director, Broadband & Gaming, Parks Associates.

Who: Jim Johnson, President & CEO, uControl

When: Thursday, June 26
2:15 pm Pacific

Where: CONNECTIONS™: The Digital Living Conference and Showcase
Santa Clara Convention Center
Grand Ballroom
Santa Clara, CA

For an interactive demo and videos of the uControl TouchScreen and Web portal, please visit www.uControl.com

About uControl

uControl is a leading provider of next-generation home security and automation solutions. The uControl Home Security, Monitoring and Automation (SMA) solution enables Broadband Service Providers to deliver the next generation of services for the Digital Home. The uControl SMA Platform and accompanying TouchScreen combine to create an open, technology-agnostic infrastructure that works equally well for all homes whether they have an existing wired alarm system or require a new wireless alarm system to be installed. Beyond home security, the uControl SMA Platform delivers the next generation of energy management, home automation and Digital Home services that customers will demand.

Founded in November 2005, uControl's management team consists of former executives from Cisco Systems, NetSpeed, Motive, BroadJump and TippingPoint. They are credited for developing products and services that automated installation and support processes for DSL and cable modem service providers. uControl's board of directors includes former executives from alarm and telecommunications service providers including ADT, GE Security, Clearwire, MFS and others.
